

Corporate Philosophy

To continue to build customer loyalty and maintain the strength of our company with hard work, integrity and outstanding service. We take great pride in servicing our clientele and proudly acknowledge some of our customers have been with us since our inception. You deserve the best and we guarantee all our work.

Experience

C&J Parking Lot Sweeping has experienced staff with extensive knowledge in commercial, residential and construction cleanup services. Unsurpassed in the sweeping industry, we are continually attending seminars and upgrading our knowledge and equipment to bring you state-of-the-art service and technology.

Service

Our large fleet of over 40 sweepers are maintained on a daily basis by our in-house, certified mechanics. Our equipment is the foundation of our ability to provide our customers with ongoing service. This equipment stands ready to meet your requirements, no matter how large or small your needs, and our trained professionals are eager to do the best job possible. Even though we are one of the largest sweeping companies in Michigan, we are still a hands-on business with old-fashioned, hard work ethics that get the job done right.

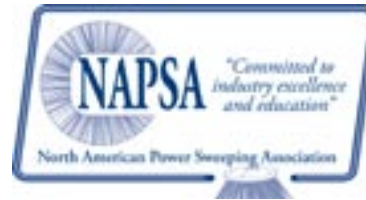

Rapid Response

C&J Parking Lot Sweeping has a 24-hour answering service, with radio-dispatched trucks, to provide you with quick and efficient service.

An attitude for efficiency!

Sweep With Attitude.
An attitude for customer satisfaction!

Sweep With Attitude.
An attitude for service!

Enhance and protect your assets!

C&J PARKING LOT
SWEEPING INC.

We are proud of our long-standing clientele base.
Our service quality speaks for itself:
We still serve our first customer.

Sweep With Attitude.
An attitude for dependability!

Sweeping of your parking lots and ingress areas, plus emptying your trash receptacles, keeps your property looking its best. C&J's professional level of services also creates a safer, more inviting environment for your clients. Our services can assist you in all of your ground maintenance requirements in commercial, retail and residential complexes.

Construction site and asphalt milling sweeping is of primary importance. We promptly remove dirt, sand and debris to keep your project looking its best and your inspectors smiling. C&J also tackles the tough, heavy-duty sweeping required for milling and paving work and our operators—who are in constant radio contact with our central base—ensure your job is completed with precision and timeliness.

Power washing of sidewalks, parking decks and parking garages, followed by regular sweeping, keeps your walks and garages clean and inviting to the public.

Parking lot striping enhances your parking lot, helps to manage traffic flow, designates no parking areas, fire lanes and crosswalks, and provides pedestrian and vehicle safety via designated parking spaces.

Catch basin cleaning and line jetting keeps storm drains free of debris to ensure good water flow. This helps to extend the life of your parking lot surface, while reducing icing in the winter months. If you do have an emergency back up, we'll take care of it effectively and quickly.

Catch basin repair is required when basins sink due to frost and thaw, flood or accident. Our team of experts can assist you with your needs.

Our services are available on a one-time, periodic or other scheduled, contracted basis customized to fit your exact needs.
